## ABOUT ME

UX/UI designer and frontend developer who bridges design thinking with accessible code from research to production. Looking for hybrid roles where design meets development. Always happy to grab a coffee. ☕

## SKILLS

### Design & Prototyping

Figma Framer Wireframes  
Prototyping Design Systems WCAG 2.1 AA

### UX RESEARCH

User interviews A/B testing Surveys  
Qualitative analysis Usability testing

### CODE & TECHNOLOGY

Next.js React TypeScript Tailwind CSS  
JavaScript HTML CSS Vue Flutter  
Rest API Firebase

### AI & VISUAL PRODUCTION

Midjourney DALL-E Prompt engineering

### SOFT SKILLS

Communicative Analytical Creative Driven  
Team player

## EDUCATION

### UX/UI Design with Front-End Competence

Chas Academy · Aug 2023 – Jun 2025

### Application Developer

IT-Högskola · Aug 2021 – May 2023

## LANGUAGES

Portuguese – Native  
Swedish – Fluent  
English – Very Good  
Spanish – Fluent

## UX/UI Designer & Frontend Developer

### WORK EXPERIENCE

#### UX/UI Designer

Nov 24 - May 25

Make Up Institute Stockholm

- Survey with **11** respondents showed that **100%** struggled to find contact information → redesigned the contact flow and reduced steps from **4 to 1**.
- Built a new **design system** in Figma with variables and a **component library**.
- **90.9%** of users wanted a clearer application guide → built step-by-step flow that reduced drop-offs in the application process.
- Restructured the information architecture and built a new design system (**WCAG 2.1 AA**) → validated in user testing with measurable improvement in time to find the right course.

#### UX/UI Designer

May 24 - Jun 24

Chas Challenge

- Reached **2nd place** in design competition with an **AI-driven** solution among multiple competing teams.
- Designed UI that simplified core flows → fewer interaction steps and more scannable information.
- Led UX research and usability testing in a cross-functional agile team.

#### Application Developer

Nov 22 - Feb 23

IT-Högskolan (Omställningsstudiestöd)

- Built application in a cross-functional team of **10+** → **approved** by the product owner and handed over to a new team for continued development.
- Step-by-step flows reduced support questions about rules and eligibility during user validation.
- Delivered documented code that enabled a smooth handover to the next team.

#### Application Developer

Sep 22

Sveriges Möjligheter

- Developed a **SwiftUI prototype** with role-based navigation — **approved by the product team** on the first review.
